OUTDOORS**

Educational Activities for Kids at Severn Valley Country Park

Scavenger Hunt

Duration: One hour.

Equipment: You will need: suitable clothing and footwear. We will provide: scavenger lists and collection bags.

Activity: This is a simple activity in which children are given a list of things to find and collect. The list can include shapes or colours as well as naturally occurring objects such as feathers and leaves.

This is an excellent way of getting children of all ages to look more closely at their environment, while at the same time enjoying themselves outdoors. It also promotes good observation skills.

The activity can be altered to accommodate the children's age and ability. For older children, lists can be made more complex to add greater interest to the exercise.

Links to National curriculum:

Key Stage 1:

Hard materials:

- exploring materials
- sorting/classifying materials

Plants and seeds:

- living / non-living things

Key Stage 2:

Rocks and soils:

- properties of rocks
