

The Mere, Ellesmere

Path Information

For almost their entire length, the paths around the Mere are surfaced, broad and well maintained making this a very easy place to explore. A broad surfaced path leads from the Moors car park adjacent to the Shrewsbury to Ellesmere Road. From here you can follow the side of the Mere for almost a mile (1.1 km) past the new Visitor Centre, along the Promenade into the recently restored Victorian Cremorne Gardens. The final section of undulating path beyond the first gate to The Crimps, although once surfaced, is now soft and narrow in places.
